A Business View of the Insurance Information System (2)

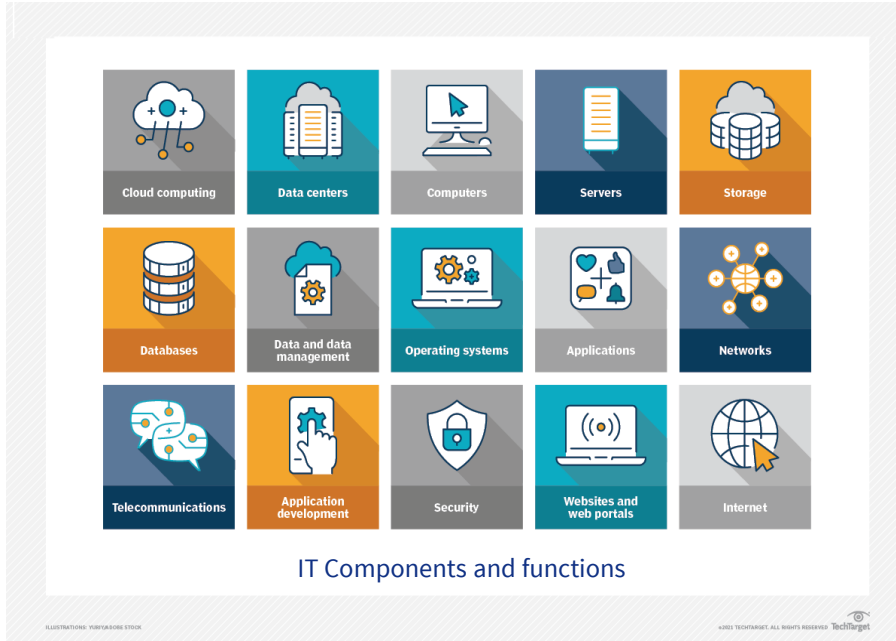

Definition of Information Technology (IT)

“Information technology (IT) is the use of any computers, storage, networking and other physical devices, infrastructure and processes to create, process, store, secure and exchange all forms of electronic data”.

- ➔ It corresponds to the technological part of the Information System
- ➔ It's a term commonly used for business environment
- ➔ It supports the Business goals
- ➔ The term was first published in the Harvard Business Review in 1958⁽³⁾

Challenges of IT in a Company – The starting point for projects

- ➔ Business: TTM, digitalization, digital transformation
- ➔ Technological: Obsolescence, Technical debt
- ➔ Security: Leakage, attacks, fraud
- ➔ Operational: SLAs, QoS
- ➔ Financials: TCO, Inflation, costs optimization
- ➔ HR: People Management, flex ratio, Sourcing strategy

Zoom on IT challenges leading to projects

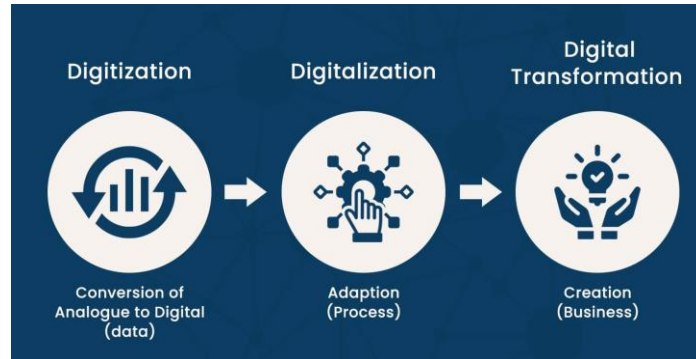

→ Business:

- TTM
- Digitalization, digital transformation

→ Technological:

- Obsolescence
- Technical debt

TCO

Zoom on IT challenges leading to projects

Example of German Market for battery – ELCV

Source: Arthur D. Little (4). May 2019.

- Operating system 3 years
- Annual mileage: 30,000 km
 - eLCV purchasing subsidy: €4,000
 - Electricity cost: €0.14 (net)/kWh
 - Diesel cost: €1.05 (net)/l
 - Current purchasing subsidy: €4,000

Zoom on IT challenges leading to projects

➔ Security:

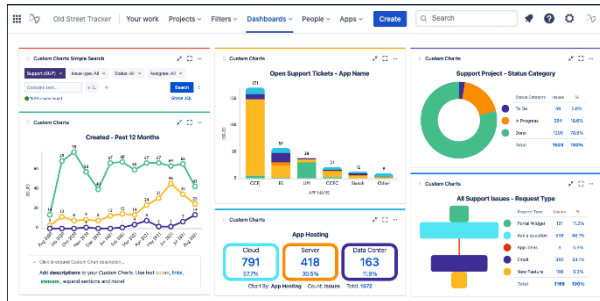

- ➔ Leakage
- ➔ Attacks
- ➔ Fraud

➔ Operational:

- ➔ QoS
- ➔ SLAs

Ransomware
Viruses
Phishing
persistent kits
D worms
threat Botnets
Exploit
Advanced

Zoom on IT challenges leading to projects

➔ Financials:

- ➔ TCO
- ➔ Inflation
- ➔ Costs optimization

➔ Human Resources HR:

- ➔ People Management
- ➔ Sourcing strategy
- ➔ Flex ratio
